Our services

The table below outlines the services provided by the Group.

Core services	Available to
Wealth Management Integrated approach to protecting and growing wealth that combines both Financial Planning and Investment Management.	PI
Investment Management Designed for clients who want to benefit from a personal focus on their investment portfolio but do not require financial planning.	PI PI CH CO
Financial Planning This service helps address our clients' wider financial planning needs including advice on investment, protection or retirement requirements.	PI
Managed Portfolio Service ('MPS') This service is provided for financial advisers who offer a suite of risk rated model portfolios designed for their clients who do not require, or for whom it is not cost effective, to have a personalised solution.	PI
Brewin Portfolio Service ('BPS') A cost effective service for clients with smaller sums to invest who do not need advice. It combines the investment expertise of Brewin Dolphin with the freedom for individuals who are happy making their own risk decisions and investment choices. It gives access to six risk rated portfolios which are primarily invested in passive funds.	PI
Execution Only Custody, trade execution and settlement services for clients who have no need for advice and prefer to make their own investment decisions. This service is limited and we no longer provide it on a standalone basis to new clients.	PI CH CO
Non-core services	
Advisory The service provided is either 'Advisory Managed', where we provide advice on both the structure of the portfolio and the individual investments within it, or 'Dealing with Advice' where advice is provided on a transactional basis only. We no longer offer this service for new clients, other than on an exceptional basis.	PI CH CO
